Internship / Thesis Software Development

⚟ Wetzlar/Huettenberg 💼 Graduation/Internship (remunerated) 📅 Starting now

Are you passionate about developing software applications?
You would like to gain practical experience in challenging projects?
Then join our team.

Possible areas of work

- Developing complex application systems based on the .NET 6 and Kubernetes modern web technologies
- Designing and developing database models for object-oriented systems
- Collaboration in a motivated team of developers using agile methods

Examples of topics

- Analysis and further development of the architecture of our cloud solution with regard to containerisation, microservices and cloud technologies used;
- Drawing up a concept and creating a prototype for automatic text recognition and transferring voucher data both for the electronic project accounting;
- Designing and implementing an analytical solution for a better understanding of user behaviour as a basis for developing our cloud solution in the future;
- Analysing and documenting existing project management processes, agile methods and tools at our company.
- Migration of an application to the Postgres database

We look forward to receiving your complete application documents, including your earliest possible starting date by email to: personal@mbi.de. We assure you that we will treat your application in confidence.
